

Swine Unloading Schedule 2023

The **Ag teacher responsible for pigs** at each school needs to be at the scales during the weigh in process for your chapter. Please have someone from your school to help get the pigs on the scales.

Pigs need to be as clean as possible for classification. If they are dirty you may have to wash them before they can be classified.

Unload Schedule (I would show up about 15 minutes before your unload time). Make sure you look at the new maps for unloading each species.
